Facilities

Arriva Midland Fox 152 (Hourly Mo-Sa)

Nearby sites to visit

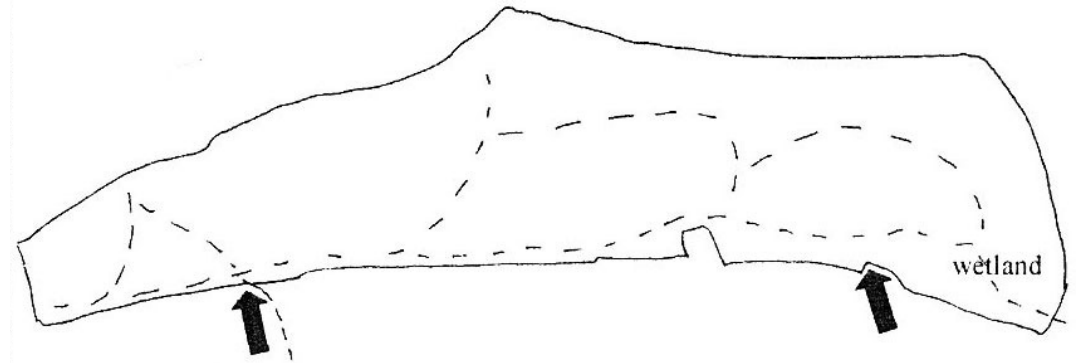

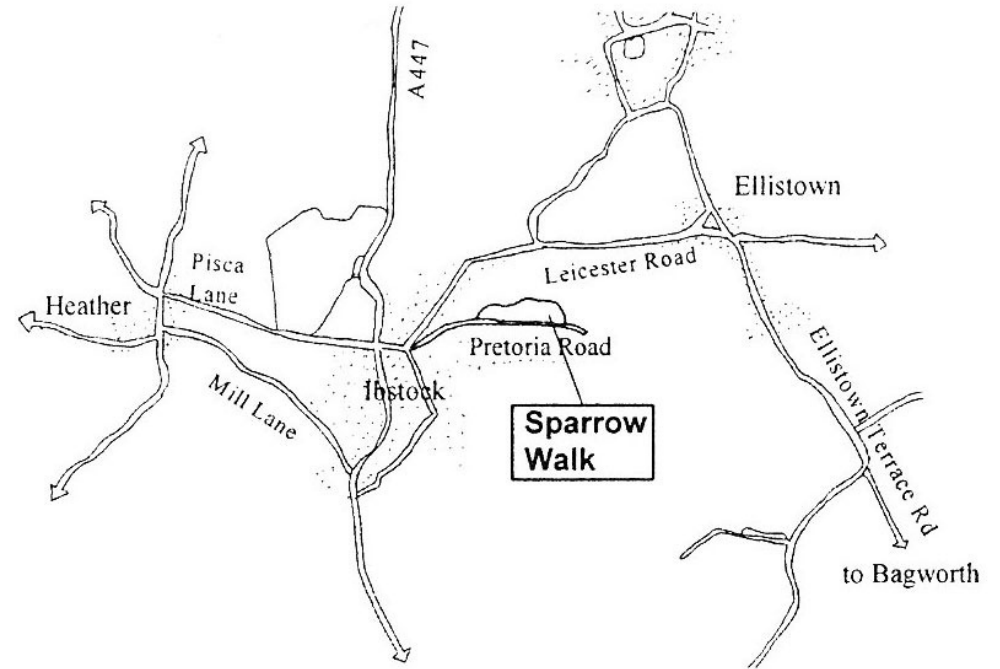

- Sence Valley Forest Park
- Kelham Bridge Nature Reserve

What to look for

Quick-growing species such as alder and birch have been planted to create an early impact.

Planting has been set back from the properties on raised bunds to prevent future shading or maintenance problems. This has left wide grassy swards, similar to hay meadows, for walking and wildlife.

A wetland area is excluded from grassland management to allow it to develop naturally and colonise with wetland species.
