

THE NATIONAL
FOREST

Staunton Harold Reservoir

Reservoir built in 1964 and operated by Severn Trent water. There are many points around the reservoir where you can park and walk and enjoy the views.

Facilities

 Barton Buses 3C to Ticknall (irreg.)

Nearby sites to visit

- The car park is the start point for the National Forest *Reservoirs Walk* and *Oaks & Oaklands*

What to look for

If you visit the site in summer, it is well worth taking a short walk from the visitor centre to the wildflower meadow.

Follow the story of water in the visitor centre exhibition.

The Tower Windmill by the car park was let by the Melbourne estate until it fell into disrepair in 1884.

The southern car park offers spectacular views north across the reservoir.
